Float | Fana Hues

Sometimes “letting go” sounds wonderful. Then you find out it doesn’t necessarily mean you’ve found peace. Maybe you’re just tired of swimming.

Sometimes “letting go” sounds wonderful. Then you find out it doesn’t necessarily mean you’ve found peace. Maybe you’re just tired of swimming.

And here we are inside “Float”.

Fana Hues starts from a wounded relationship, stays suspended between desire, pride and disappointment, and makes a decision less spectacular than revenge or a grand ending.

Float.

Stop chasing explanations.

It isn’t a complete surrender. It’s a **resistant surrender**.

The neo-soul production has a soft, sky-blue colour. The sounds don’t weigh, they drift. The voice moves over the beat with the ease of someone who has discovered that to stay afloat you need to make fewer movements, not more.

But underneath there is still pain.

The verb *float* becomes almost a survival strategy.

Like when you stop fighting a powerful current and realise that, at least for a while, you have to let the water carry you.

> ***“Float” doesn’t tell of the lightness of someone who carries no weight. It tells of that harder kind of lightness that arrives when we finally stop gripping our weights with all our strength.***
