SJB SELECTION · NOVEMBER 2026

A worship melody can travel through years, generations and different communities and still find, when the sonic surroundings change, a new room in which to breathe without losing what it was.

This rereading of “Agnus Dei (You Are Holy)” doesn’t try to reinvent the message.

Its strength lies in changing the light, the texture and the air around words that are already deeply familiar.

Repetition remains central.

But it doesn’t weigh.

It draws you in.

The voices layer gradually and produce an **intimate solemnity**, a seemingly contradictory phrase that describes well the recording’s ability to hold spiritual dimension and closeness together.

The sound has a soft luminosity.

The voices spread like ripples on water after a single touch, and each new pass feels less like a repetition than a deepening.

The contemporary arrangement doesn’t erase the composition’s original function.

It gives it another body.

> ***Modernising, here, doesn’t mean replacing what existed. It means changing the light in the room so that familiar words can be seen, and perhaps felt, once again.***
